ADMINISTRATIVE COUNCIL

Front (L-R): Dr. Jane Lingua, Assistant Vice President for Student Affairs, Sr. Kathleen Kelly, Vice President for the Doheny Campus and Dean for the Associate Arts and Graduate Programs, Pamela Hillman, Vice President for Institutional Advancement. Back (L-R): Sr. Karen Kennelly, President, William Everhart, Vice President for Business and Finance, Jacqueline Powers Doud, Vice President and Dean of Faculty.

Mount St. Mary's College seal, designed by Baker's heraldic office of London is in the form of a circular shield. The name of the College appears around the edge of the shield, and 1925 the date of the College's founding, is in the center. The shield itself has four divisions. An open book at the bottom center bears the college motto--Deus Illuminatio Mea--God My Light. At the upper center a lily surrounded by thorns symbolizes the Immaculate Conception of Mary. The fleur-de-lis of France at the upper right represents the Sisters of St. Joseph of Carondelet, established at Le Py in France in 1650. At the upper left three angel wings with a rose signify the city of Los Angeles. The seal thus symbolizes Mount Saint Mary's College founded in the city of Our Lady Queen of the Angels by the Sisters of St. Joseph of Carondelet under the patronage of Mary, model of womanhood.

This has been a learning experience. I have encountered new people, ideas, and experiences and have grown up (finally). I am confident about my abilities and future, for this I thank the Mount. What I'll miss the most is living in the dorms with my friends. It is nice to know that if I ever need to talk, laugh or cry, I'll find a friend a few doors away at any hour, day or night. Friendship will fade once we leave, but I know that I can count on some that will last throughout the year, K, J, and P.

Being in the Nursing program at the Mount has given me the opportunity to mature and develop my capabilities to the fullest. I started out here not knowing what to expect but I had the hopes of becoming a successful individual. Well I made it and this is only the beginning of a vanquishing career. Throughout my days at the Mount, I have met several wonderful people that have made my college years more memorable. There is no doubt that I will miss them dearly for they have been part of my astounding journey in realizing my mission in life.

MSMC and the nursing program have made me a more confident person in dealing with other people and with myself. Through the intense curriculum set forth by the nursing department, I have learned to be more assertive and discovered my potential for leadership. After graduation, I will miss my friends and the intense nursing program that has made me realize my potential to succeed in a competitive world.

My black and white vision has changed to include a spectrum of grays, and even reds, greens, violets--moments of brilliant color. I will miss the passion and brilliance of favorite instructors, friends, and the curious juxtaposition of physical beauty and calm with the hair-raising activities of daily student life.

I will miss the incredible staff and faculty-with an extra thank you to Darryl Stevens. Thank you Mami, Pancho, Vane, Tia/Tio, Jorge for being my support system these four years. To my friends and the "Fox Force 5" thank you for your unconditional support, I will truly miss you guys!

The D.J. arrived late, the caterers blew out several fuses and couldn't cook the food, and the clown ran out of balloons. The Saturn event was HERE. The three months of stressing, managing, delegating, planning, and coordinating all boiled down to one day. Those late nights stressing for the event till 3:00am are nights I will always remember and miss with my group. Through all my hard work I feel and can honestly say it all paid off. I will miss the teamwork and camaraderie.

In the four years that I have been at the Mount I have learned not only about other people, but I have learned about myself as well. Being in college shows you your likes and dislikes and teaches you how to be responsible for the choices you make. What I will miss most are my friends. The people I have met here are the best friends that a person could have. In my friends I have found people that I can turn to when I need someone whether in good or bad times.

Maria Elena Garcia

MSMC has fostered in me the qualities of a leader. I became President of Pi Theta Mu and Vice President of Le Club Francais. The Mount has made a great impact on me and expanded my horizons. I was motivated to leave my safe sanctuary and venture to Europe where I had many valuable experiences. Thanks to MSMC the shy girl, I once was, has been transformed in to an assertive self assured woman.

It's amazing how fast four years can pass. I remember thinking how far 1996 seemed and how I would surely have gray hair by the ripe old age of 22. Here I am, 22, and proud of who I am. I owe those feelings of pride to my family, F5, and all those close to my heart. To the class of 1996 I bestow my gratitude for being my companion on this four year journey. I wish you luck, strength, and courage for the women who follow in your footsteps.

The experience that I have had at Mount St. Mary's have been the richest in my life. Through the support of my family, friends, teachers, and involvement in many organizations on campus, I have grown from a shy, reserved girl into an independent, ambitious, educated young woman. I will miss all of the challenges of being a student, the laughter of the good times, and the tears of the trying times. But mostly, I will miss my dearest friends who showed me their sisterhood and love.

Being a Mount student has been a unique, yet rewarding experience for me. One way in which I have changed while being a student here is the fact that I have become much more assertive. I have taken on leadership positions and gotten involved in various other activities. In addition, my view regarding school has changed. Before I came here, I was very much into my studies and felt that I had no time for involvement in extracurricular activities. Since I have been at MSMC, I have also come to realize how important it is to be a well-rounded person. There are many things I will miss when I leave the Mount, but what I will miss the most are the lifetime friendships I have made with many people here!

Gabriella Lopez

MSMC is a highly qualified school for woman. MSMC has helped enrich and prepare my education for my future endeavors. I had the opportunity and wonderful experience to attend and interact on both campuses. The college consists of strong, united, and intellectual woman. I feel proud to have been part of the Athenian community. MSMC helped me to become an independent woman!

Transferring from Pierce College to MSMC was the best decision I have made so far regarding my pursuit of higher education. I love the small classroom sizes, the close student to faculty interaction, and the camaraderie among students. I have changed here in that I am more confident in myself and my leadership abilities. I would miss being a resident assistant and, most of all, the great friends I have made.

Regina Perez

I believe that having gone through the rigorous nursing program at the Mount, I have developed the skills that are necessary to compete in a competitive job market. I have learned to be assertive, competent, and I have developed the leadership skills that were hidden inside of me. I believe the trying times made me a strong person and served as a stimulus to develop closer bonds with my friends. We tackled the hard times together and complemented each other with our strengths and weaknesses. I will undoubtedly miss these friendships.

Mount St. Mary's College has contributed greatly to the person I have become. Through new friendships that have grown into life long friends, to many opportunities that have enhanced my leadership skills, spiritual beliefs and have enabled me to apply to my daily life. The Mount is a wonderful institution that gives a student a sense of value when she graduates and enters the work force.

I would like to thank the Doheny staff, students, faculty, and Sisters of St. Joseph of Carondelet for making my 2 ½ years at MSMC an experience that I will treasure for a life time. God Bless and I wish everybody the best of luck. P.S. I will miss going up and down the third floor of Bldg. 7.

Anita Smith

As a repeat graduate of MSMC I realize that you're never to old to accept new challenges in an ever changing world. I will miss the security I feel in knowing and being known by so many people. I will also miss my favorite spot in the library-The Freenet Computers. I will forever be "Polly, IRC-Pro of MSMC!"

Ximena Vargas

MSMC has definitely been the experience of my life. I had my ups and downs, however, my downs were the challenges of my life that made me grow up a little more each time. MSMC has not only give me my education but has given me the means to accomplish my goals! I'll miss all if it!

And who said you couldn't be happy with a "Fote".

I can't really express how I have changed throughout the years at Mount St. Mary's College. I can only say that through the knowledge that I have acquired from my professors, friends, and especially from my nine month experience in Granada, Spain, I am now more focused about what I really want to do in life. I'm more confident about my abilities and more assertive to take risks and to face new challenges that will come my way. After graduation, I plan to go to China for a year to acquire Mandarin and Cantonese and to work for an International firm. I am going to miss all the support and advice from friends, professors, and staff at the Mount. I think that my years here would not have been the same without them encouraging me and challenging me to take risks.

Kristen Young

My first semester at MSMC was a period of adjustment and growth. It was my first experience away from home. I learned what it was like to be away from my family and have a more complete freedom. I grew in maturity and self confidence while becoming more independent. The last two years, I have been increasing my knowledge as well as my interpersonal skills through my involvement as a Resident Assistant. I have tried to take advantage of all the college has to offer in order to get a complete education. I feel my experiences at MSMC have made me a well rounded individual. I will greatly miss the interaction with residents and faculty at the Mount. The feeling of community and the cozy campus have become my home. However, my friends (DGD forever!) and experiences will be with me always!!

Norma Guardado

I wanted to attend college but I did not know which one. I decided to visit the Doheny Campus and the first time I saw it I liked it. I knew that Mount St. Mary's College could offer me individual attention from professors. I knew that the Mount was the right place because I was going to be able to learn about other cultures and become an independent person.

My advice to the future MSMC students is not to give up, that everything is possible if one really wants to reach ones goal. Even though there might be hard times everything will pay off.

I will miss the whole college experience, friends, teachers and faculty.

I thank God, my parents, and all my friends.

Laura Lopez

My four years at Mount St. Mary's College will be unforgettable. From my involvement, as Orientation Coordinator, Summer Facilities Coordinator, Resident Assistant, Program Assistant/Housing, Yearbook (Copy-Editor, Editor in Chief and Senior Pages Editor) and all my other extracurricular activities and jobs while at the Mount, I grew so much, and with no doubt blossomed into a mature young woman.

I cannot end this chapter of my life without thanking my parents Vicente Lopez and Margarita Lopez, and my brothers and sisters Adrian, Jesus, Juan, Silvia, Maria and Vicente. Thank you!! Also, my significant other, Aaron Maximillian Crow, who stuck to me like glue (I LOVE YOU!).

"Take what life gives you and turn it to your advantage and in the process make yourself happy and those around you. By doing this, every experience you have will have some happiness in it"

Anna Perez

The Mount has enriched me with much more than random facts. I have been given an intrinsic treasure that only a well-rounded education can give. In opening this treasure I have awakened to the potential and power within me as a woman leader. I feel confident as I step forward to graduate and begin my career; a future that I know will always thirst for knowledge and possess a conviction for service

In retrospect, I realize that I am indebted to the Mount for all of this it holds: the lasting friendships that I made, the memories in the residence halls, the strolls under the white archways, the workouts around the loop, the spiritual journeys and conquests, as well as the grueling nights of intensive studying --Thank you precious Mount!

Gloria Ramos

Being the oldest of my family and the first to attend college, I was honored to be given this opportunity to show my siblings and cousins that education is important if one is to succeed in life. The Mount was the place that I believed would give me this opportunity. By meeting people of different cultures as well as the individual attention I needed from my professors and tutors to succeed academically.

What I will miss the most is living in the dorms because I was able to be independent, having the resources I needed to do my homework and the opportunity to know so many wonderful friends who I hope will be my friends forever. I will also miss the different Campus Ministry activities, Pi Theta Mu Sorority Service activities, Locke High School mentoring and the long talks and togetherness with my closest friends.

BELIEVE IN YOURSELF

If you'll remember always
There's no goal you can't achieve,
If you'll try your very hardest
And, above all else, believe--
Believe that you're a person
Who has something good to give,
Believe that you can make this world
A better place to live.
If you'll believe your talents
And your skills are needed, too,
Then you're sure to find there's nothing
In the world you cannot do!

TAKE TIME

Take time to work-
It is the price of success.
Take time to think
It is the source of power.
Take time to play-
It is the secret of perpetual youth.
Take time to read-
It is the fountain of wisdom.
Take time to be friendly-
It is the road to happiness.
Take time to dream-
